

PROJECT SHOWCASE

Date complete	2015/6
Project	Mombasa Port Development Project- Phase 1 - A Kenya Vision 2030 Flagship project
GPS / Location	Port Reitz, Mombasa
Architect	Japan Port Consultants Ltd (Tokyo) in JV with BAC/GKA Kenya
Roofing Contractor	TOYO CONSTRUCTION Co. LTD
Developer	Government of Kenya (Kenya Ports Authority) – co-funded by the Japanese International Cooperation Agency (JICA)
Roofing Material	COLOURPLUS-PVdF AZ150 - 0.60mm
Profile	Site-Profiled & part Site-Crimped SAFLOK700 – over 14,000 sqM of cover supplied.
Special features	<p>The project setting is unique, spread out on over 100 Acres of land-reclaimed from the ocean using the most ambitious deep-sea dredge & fill exercise ever witnessed on the Eastern-Africa coastline.</p> <p>Given the environment, product performance was at the top of the client’s wish list. Over two years of engagement with the client and consultants, product development & testing at labs in Tokyo, Japan satisfied the project team that MRM was up to the task as a specialist roofing supplier.</p> <p>MRM deployed its project management system for the development and supply of specially coated base-steel (AZ150) and superior paint systems (COLOURPLUS PVdF) for the concealed, non-pierce-fixed SAFlok700 roofing that could yield a performance and flexibility to meet the project requirements.</p>

ADDITIONAL NOTES:

The great coordination and team-work with the contractors ensured the site-supply and crimping was achieved inside a record 42 days. Training and demonstrations for the installers who had no prior experience with concealed fix system allowed the team to fully install over the 14,000 sqM without incident.

This team-work realized has earned the appreciation of the client, project consultants and the contractors. As a result, MRM has been granted preliminary intent of award for the supply to Phase 2 of the MPDP that is about to start.
