

PROJECT SHOWCASE

Date complete	2017
Project	ONE ACRE FUND OFFICES
GPS / location	KAKAMEGA
Architect	MASS DESIGN, RWANDA OFFICE
Roofing Contractor	RODAH INTERNATIONAL LIMITED
Roofing Material	ULTRA-SPAN STEEL TRUSSING MADE OUT OF ZINCAL STEEL FROM MRM
Developer	ONE ACRE FUND
Special features	The project has been developed by this fast growing NGO and is aimed at creating new office space, fast and economically while maintaining its 'Green' credentials. They chose to use Ultraspan Light Gauge Steel Trussing system that has proven to be superior, reliable, time saving, easy to install and more so neat to look at. By using this trussing system from MRM, the client has been able to meet the strict deadlines in place for the project, safeguarded the environment and developed a project that is neat to look at and at a very reasonable cost

ULTRA-SPAN[®]
LIGHT GAUGE STEEL TRUSS SYSTEM
