

ROOFING MATERIALS & QUALITY

Mabati Rolling Mills: Making a world of difference in the region

Mabati Rolling Mills Limited (MRM) prides itself in being at the forefront of technology, innovation and sustainability as the keys to deliver value in 'sheltering' Kenyans and its bordering neighbours.

The company started operations at Mariakani in Mombasa, Kenya, in 1962. It is the flagship enterprise of the Safal Group – Africa's largest producer of steel roofing and other building solutions, with a presence in 12 countries.

MRM is a pioneer in innovation and uses world class technology in its manufacturing to produce its own coils that are used to produce high quality roofing products in Kenya and the region.

MRMs heritage consists of many firsts in the market:

- In the 60s: The first to use sheet-to-sheet technology in roofing production.
- In the 80s: Launched the first continuous metal coating technology in Kenya (GI).
- In the 90s: Introduces colour coating technology to produce colour roofs in the market.

- In the 2000s: The first in Africa to produce the world's leading patented Aluminum-Zinc coated steel (*Zincal*®) branded as *Dumuzas*®, on unpainted roofing. Also launched steel roofing tiles sold as *Versatile*® brand.

Since 2010 to present, the group has introduced advanced building solutions, such as:

- Stone coated steel tiles sold under the brand name *Lifestyle*®
- Light gauge steel trussing, sold as *Ultraspan*®
- Concealed fix roofing that uses a clip system to fix: *Saflok*® and *Newlok*®
- Pre-engineered building solutions (PEB) for industrial, commercial and residential use.
- Green building solutions such as energy efficient roofs: A wide range of insulation products.
- Sky lighting solutions: Polycarbonate sheets.
- MRM Cool roof solutions such as ventilation systems – Louvres, Cyclones and Ridge Ventilators.
- Water Harvesting solutions: Gutters and downpipes

MRM upholds a strict culture of excellence in specifications in roofing and allied building solutions. Experiences gathered over the 12 African countries in which we operate as part of Safal Group has enriched our product and service development to allow us respond to the most demanding challenges for roofing and allied building solutions.

Our roofing products include the globally recognised *Dumuzas*®, *Dumurangi*®, *Galsheet Resincot*®, *Covermax*®, *Maxcover*®, *Versatile*®, *Orientile*®, *Elegantile*®, *Zentile*® and *Lifestyle*®. These brands generally provide residential solutions. *Safdeck*®, *Saflock*® and *TekdekIT5*® form part of our brands for commercial and industrial property roofing.

MRM's roofs not only satisfy the core functionality of protection from elements, but also embraces key design item that defines form and gives character to a building as it flaunts the home's crowning glory aesthetics.

SAFAL MRM Foundation

Mabati Rolling Mills is critically aware of its role as a responsible corporate citizen. This is evident through various social investment initiatives, which are executed under four core pillars: Education, Health, Environment and Shelter.

There are two key projects that the company runs at Mariakani, Mombasa:

Mabati Technical Training Institute

The Mabati Technical Training Institute was founded in 2005. It offers disadvantaged young

men and women the opportunity to acquire skills that will enable them work and support themselves and their families.

Mabati Medical Centre

The Mabati Medical Centre was founded in 2000, and currently treats over 40,000 patients per year. The facility offers a wide variety of specialist treatments for the local community who would otherwise not have access to healthcare.
